

# Our Scientific and R&D innovative Solutions For Sustainable Veterinary Practices

An ISO Certified Company

GMP Certified Company

HACCP Certified Company

India's top quality Veterinary Inputs

## Special Calcium, Phosphorus and Trace Mineral, Herbal Extracts with Vitamins Formula to Improve Animal Health

### COMPONENTS:

Nutritional Value per 100 ml  
 Calcium  
 Phosphorus  
 Vitamin D3  
 Vitamin B12  
 Bio Active Chromium  
 Biotin  
 Satavari (Asparagus racemosus)  
 Jivanti (Leptadenia reticulata)  
 Jatamansi (Nigella sativa)

### BENEFITS :

- Calciphos- DS improves the animal bone and Muscle strength.
- Calciphos- DS Ensures maximum bio availability of Glycine Chelated Minerals along with Chelated Calcium.
- Calciphos- DS Improves milk production to its maximum possible extent.
- Calciphos- DS Prevents Hypocalcemia and milk fever.
- Calciphos- DS Prevents Complications like Dystocia retention of placenta, Metritis, Mastitis etc.
- Calciphos - DS increases Growth and Weight of calves.
- Calciphos- DS improves health, Vigour, appetite, Bone Strength and Growth of Dogs.

### DOSAGE :

Cattle & Buffaloes/Horses : 100 ml Daily  
 Calves, Sheep & Dogs : 10 ml Daily (or) as advised by a Veterinarian.

## CALCIPHOS-DS

**PRESENTATION : 1L, 5L & 20L**

## FMDNIL

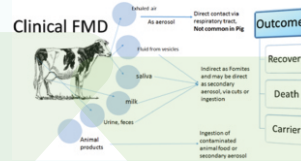

**PRESENTATION : 250 g & 500 g**

## For Prevention Of Foot & Mouth Disease (F.M.D)

### COMPOSITION :

*Eucalyptus globules*  
*Mentha piperita*  
*Trychospermum ammi*  
*Cinnamom camphor*  
*Origanum vulgare*  
*Ginger officinalis*  
*Syzygium aromaticum*  
*Commiphora wightii*  
*Sida cordifolia*  
*Terminalia arjuna.*

Foot and Mouth Disease (FMD) is a severe, high contagious viral disease of livestock that has a significant economic impact. The disease affects cattle, swine, sheep, goats, camelids, and other cloven hoofed ruminants. It is a Transboundary Animal Disease (TAD) that deeply affect the production of livestock and disrupting regional and international trade in animals and animal products. FMD is caused by an Aphthovirus of the family Picornaviridae, seven strains (A, O, C, SAT1, SAT2, SAT3, and Asia1) are endemic in different countries virus. Intensively reared animals are more susceptible to the disease than traditional breeds.

A scheme showing Foot-and-Mouth Disease virus (FMDV) entry to target cells

### BENEFITS :

- Provides the immune resistance to animal against Aphthovirus.
- Helps to heal up the pustules on tongue, gums and wound on hooves.
- Improve the animal health and reduce death rate of animal.
- It stops the further blisters formation and further animal contamination.
- It reduces the animal stress and enhances the appetite.

### METHOD OF APPLICATION :

Take required quantity of FMDNIL powder and add water to make paste. Apply paste on mouth lesions or apply FMDNIL powder directly 2 to 3 times a day (or) as advised by a Veterinarian.

## Unique combination of Trace Minerals, Vitamins with Prebiotics

### COMPONENTS:

Each 6 gm Bolus contains  
 Ferrous  
 Manganese  
 Cobalt  
 Magnesium  
 Phosphorous  
 Iodine  
 Calcium  
 Copper  
 Zinc  
 Vitamin E  
 Vitamin A  
 Vitamin D3  
 Dried yeast

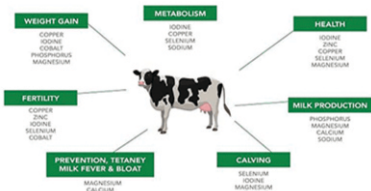

RUMIBIO-MN is a chelated mineral mixture for cattle, dairy cows, mineral mixture for poultry, horse, pigs and goats enriched with copper and amino acids as an ideal supplement for animal feeding to fulfill all their needs of dairy, veterinary animals. Chelated RUMIBIO-MN Powder meets the region-wise specific nutritional requirement of veterinary animals and also avoids mineral toxicity to animals as well as provides adequate minerals and vitamins to overcome deficiencies.

### BENEFITS:

- Improves fertility rate.
- Treats infertility & repeat breeding.
- Improves milk production, fat & SNF.
- Enhances growth and immune function.
- Helps in the overall growth of young calves.
- It is good for the utilization of absorbed nutrients and helps improve reproductive efficiency.
- It helps reduce the inter-calving period and prevents metabolic diseases such as ketosis, milk fever, hematuria that may occur during the calving period.

### DOSAGES ADMINISTRATION:

Cattle & Buffalo 1-2 bolus daily for consecutive 10 days  
 Sheep & goat 1/2 bolus daily for consecutive 10 days  
 or as advised by a Veterinarian.

## RUMIBIO-MN

**PRESENTATION : 5 strips x 4 bolus**

Probiotics feed mix used for improvement of milk Quality & Quantity, prevention and Control of all types of Mastitis

**COMPOSITION:**

Each 60gm contains  
 Lacobacillus acidophilus  
 Lacobacillus casei  
 Vitamin E  
 Vitamin A  
 Vitamin D3  
 Riboflavin  
 Niacinamide  
 Biotin  
 Zinc sulphate  
 Protein hydrolysate  
 Copper sulphate  
 Manganese sulphate  
 Sodium selenite  
 Trisodium citrate

**BENEFITS:**

- To enhance milk quality by lowering somatic cell.
- For prevention and control off all types of mastitis.
- Establish beneficial bacteria.
- To reduce hoof health problems.
- To repair the damaged epithelial lining of both gut and utter by supplementation of Vitamin A.
- To improve udder health and gut health by lowering pathogenic microbial population.

**DOSAGE :**

For Feed : 50-100gm/ Kg of Feed (or) as advised by a Veterinarian.

**RUMIBIO – LAC**

**PRESENTATION : 1Kg**

Booster for RBC Increaser

**HBG RICH**

**PRESENTATION : 1L**

**COMPOSITION:**

Malt Extract  
 Calcium Gluconate  
 Ferric Ammonium Citrate  
 Cobalt Chloride  
 Vitamin -D3  
 Niacinamide  
 Biotin  
 Folic Acid

**BENEFITS:**

- HBG Rich Improves Immunity.
- HBG Rich improves efficiency to fight against to disease .
- Better reproduction by increasing Hemoglobin In Blood.
- Promotes Blood Quality and Quantity.
- HBG Helps Better Nutrition during Pregnancy.
- Supportive therapy for Haemoprotozovan Disease.

**DOSAGE :**

Cattle/ Buffalo : 25 ml / day

Sheep/Goat/Dog : 5-15 ml /day (or) as advised by a Veterinarian.

A Unique Combination of Probiotics with Minerals

**CONTAINS:**

Bacillus subtilis - 1 Billion CFU/gm  
 Calcium propionate  
 Calcium formate  
 MOS

**BENEFITS:**

- BACTOMIN Produces Variety of Enzymes . Protease, Amylase, Lipase,Glycosidase which helps to improve the Digestion and enhances Feed efficiency.
- BACTOMIN Improves growth performance parameters mainly when challenged with enteric pathogens.
- BACTOMIN plays a important roletto stimulate gut-associated system immunity by acting as a non-pathogenic microbial antigen and enhances the immune system.
- High consistency of product composition ensures reliable results.

**DOSAGE :**

For Feed : 50-100gm/ Kg of Feed (or) as advised by a Veterinarian.

**BACTOMIN**

**PRESENTATION : 1Kg**

# LIVCARE

An Effective Herbal & Nutrients to Promote the Liver & Lung Functions

**PRESENTATION : 1L, 5L, 20 L**

## COMPOSITION :

*Eucalyptus globules*  
*Mentha piperita*  
*Trychospermum ammi*  
*Origanum vulgare*  
*Terminalia arjuna*  
*Sida cordifolia*  
*Syzygium aromaticum*  
*Commiphora wightii*  
*Ginger officinalis*

Liver injury is a clinically common disease. There are many disease causes including nutritional factors, disease factors, parasite factors, and poisoning factors. The main and basic pathologic symptom of many liver diseases is swelling, degeneration, necrosis, and apoptosis of hepatic cells.

## BENEFITS :

- LIVECARE helps in relieving of the animal stress under Abnormal conditions as well as prevents fatty liver and regenerates damaged hepatocytes.
- LIVECARE enhances feed taste and feed intake efficiency.
- Regular supplementation of LIVECARE improves the rate of fertility and hatchability in breeders.
- LIVECARE speedup the breeding of livestock.

## DOSAGE :

Cattle & Buffaloes/ Horse: 100ml/ Daily  
Calves, Sheep & Dogs :10 ml/ Daily  
(or) as advised by a Veterinarian.

**Manufactured & Marketed by:**

**APPLE BIO TECHNOLOGIES**
